new interiors	yes	shelf liners
pull-out-shelving	optional	optional
storage features (waste roll-out, lazy susans, etc.)	optional	optional
new drawer boxes	yes	optional
soft-close full extension drawer glides	optional	optional
installation	maybe	yes
cabinet work is done in consecutive work days (M-F)	maybe	yes
use of kitchen during off-hours	no	yes
disposal of trash	maybe	yes
environmentally green approach	no	yes
applicable taxes	maybe	yes
One person is in charge of the cabinets throughout the project.	maybe	yes

For a true comparison you will want to account for features, installation and tax. You will also want to consider the inconvenience of living through each process. Greg Ackley will make available half of your counter and all of your appliances during the project.

Ackley Cabinet can upgrade your cabinets like new without disturbing adjacent surfaces (walls, floor, counter, tile, etc.) **Ripping-out your cabinets will expose unfinished surfaces.** Utilizing the existing cabinet 'box' can significantly reduce your investment in the overall project. Ackley Cabinet lets you change only those areas you wish to upgrade.

My former customers often remark that when they did a true comparison they realized the **value** Ackley Cabinet offers.
